SUMMARY

Passionate MERN-focused web developer with hands-on experience building responsive full-stack applications. Skilled in front-end and back-end development, with familiarity in GitHub collaboration and a drive to learn new technologies and create innovative solutions.

SKILLS

Languages: JavaScript

Technologies & Tools: HTML, CSS, Tailwind CSS, React.js, Next.js, Express.js, Node.js, MongoDB, Firebase, Git, GitHub

KEY PROJECTS

Team Projects

Quizlytics | [Website](#) | [Front-End Code](#) | [Back-End Code](#)

Interactive quiz platform with AI-generated Quick Exams, examiner-uploaded Custom Exams, and Article-based quizzes. Features real-time results, answer review, and history tracking for users, while examiners access leaderboards and manage quizzes.

Technology: React.js, Next.js, Node.js, Express.js, MongoDB, Gemini AI API, REST API, JSON, Tailwind CSS.

Personal Projects

Reunion CPSCM | [Website](#) | [Front-End Code](#) | [Back-End Code](#)

A full-stack reunion event registration platform where users can register, pay entry fees, and receive QR-code-based confirmation emails. Organizers manage class-wise participant lists and verify entries by scanning QR codes at the gate, while an integrated Chabot provides instant event information.

Technology: React.js, Next.js, Node.js, Express.js, MongoDB, Gemini AI API, REST API, JSON, Tailwind CSS, Nodemailer, SSLCommerz.

Tech Fusion | [Website](#) | [Front-End Code](#) | [Back-End Code](#)

This is a full-stack website where users can show-case their tech-products and can provide suggestion for improvement to other user's product.

Technology: React, Tailwind CSS, Express.js, Firebase Authentication and MongoDB.

COURSES

- **Complete Web Development Course with Jhankar Mahbub- Programming Hero**

A 6-month long coding bootcamp where I learned to design and build web application from front-end to back-end with the MERN stack.

Education

- **Bachelor of Science (Leather Engineering) – University of Dhaka**
